In this way the appropriation was kept off the local's books, as the money did not come from the organization's regular funds.

Carried in Suit Case

The dynamite used in the explosion last month was taken from Kenvil to Newark, N. J., by automobile, according to the confession, and there packed in a suit case and transported in a taxicab to this

"In the suit case it was carried up town in the subway. There was no one on the station platform when the men carrying it alighted," the confession said, "and a fuse was set which burned two and a half minutes, giving the dynamiters a chance to get to the street before the explosive went off, two minutes after a train carrying passengers had left the station. The men then escaped into Central Park, and it was in climbing over a wall that one of the men dropped the dynamite which furnished the clue.

BY N. O. MESSENGER.

NEW YORK, November 3 .- So, down 5th avenue they came last night, the democratic cohorts, in obedience to he might make good on his promise to give President Wilson a fine send-off. There were thousands of them, with bands galore and bugle squads and fife and drum corps, and they had all kinds of illuminat ed banners about peace with honor and rosperity and preparedness.

As they marched every once in a while they would chorus the Tammany popular

It was noticeable that the crowds were silent and also apparent that among the marchers were nany hundreds of lads below the voting age. But it was a grand turnout at that and "Boss" Murphy was there in person to give it proper Tammany class, or would you call it eclat.

President Wilson took the town by storm yesterday and from noon until was the recipient of a continuous round of ovations. It was 'Wilson day" to a verity, and Mrs. Wilson shared it, too. PARADE TWO HOURS LONG ON LAST LAP OF CAMPAIGN

HUDSON, N. Y., November 3.-In his speech here today Charles E. Hughes made the tariff his chief theme and assailed the democratic party for its failure to reduce the high cost of living. "I think they were just as elothey are today," Mr. Hughes said. "As I look back to the statements that were made at the time I cannot see how any one could have said anything more eloquently, more persuasively spect to what was going to be done for American labor and American business You would have thought at that time that the sun of promise had just begun to shine upon a benighted world and that they were going to have an en-tirely new condition in which labor would profit to the utmost and Amer-ican business would get an extraordi-
